

# NO MORE OFFSHORING

## DAY OF ACTION AUGUST 21

***Members of Congress are back in their home districts. This is the time they need to hear from us. Take action and call today!***

**1-877-775-9294**

**Tell Congress to help stop companies like AT&T, Wells Fargo, CenturyLink, and GE from sending more of our jobs overseas. Tell the person who answers the phone to support the U.S. Call Center Worker and Consumer Protection Act (H.R. 3219 and S.1792) and the No Tax Breaks for Outsourcing Act (H.R. 1711 and S. 780) to save American jobs.**

The **U.S. Call Center Worker and Consumer Protection Act (S.1792 and H.R. 3219)** will help stop companies from sending jobs overseas by requiring callers be told the location of the call center to which they are speaking, offering callers the opportunity to be connected to a U.S.-based call center, and making U.S. companies who of shore their call center jobs ineligible for certain federal grants and taxpayer-funded loans.

The **No Tax Breaks for Outsourcing Act (H.R. 1711 and S. 780)** will stop rewarding companies that ship jobs overseas and reverses the incentives to send jobs to other countries that were embedded in the Republican Tax Cut and Jobs Act of 2017.
